

Crows, skunks and raccoons hate it, but you'll love it!

Introducing your new waste cart

Progressive Waste Solutions is committed to providing the safest, most environmentally responsible and efficient waste collection services for our municipal customers across North America.

The new automated waste collection service will provide added convenience for residents, minimize litter on local streets, and reduce safety risks posed to both drivers and residents by distracted drivers near the waste collection process.

How to use your cart

On your waste collection day, simply place your cart by the curb or edge of pavement and follow the instructions below.

- The cart lid must be able to close to comply with the four bag limit
- Arrow on the top of the container points to the centre of the road
- Wheels are placed back against the curb or on the edge of the pavement
- Carts are placed at least 1 metre (3ft) from stationary objects such as mailboxes, vehicles or other carts

If you have any questions or concerns, please call **519-693-4941**
